*EURO-COBBLE II | 5 7/16 x 5 7/16
138mm x 138mm

SPECIFICATIONS ON PAGE 14

Old World Cobble is a mixture of seven irregular shapes which are tumbled to replicate the weathered appearance of genuine European stone pavers. Each paver has a smooth side and a textured side. Allowing it to be installed with either the smooth or textured surface facing up.

Stocked in 60 mm thickness. 80 mm available by special order. This shape is not recommended for use in vehicular traffic areas. Polymeric Sand is recommended for the paver joints.

The freeform shape makes it easy to create elegant circular patios and custom outdoor spaces with a natural, flowing design.

SQUARE | 4 3/4 x 4 3/4
121mm x 121mm

Why We Love It

Tri-Cobble's three-piece design and rounded edges make it easy to create smooth curves, winding pathways, and distinctive paving patterns.

SPECIFICATIONS ON PAGE 14

Stock color selection subject to change. Be sure to view actual product samples prior to ordering. Additional colors available upon request. Paver swatches represent color only.

CIRCLE COBBLE

Create a stunning focal point within any paver style with our pre-packaged 71-1/4" diameter kits. Extend your design by adding extra rings of our Tri-Cobble pavers for larger circles. Visit airvolblock.com/installation for Circle Kit instructions or contact the Air Vol Sales Team.

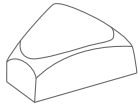

Stocked in 60 mm thickness. Sold as mixed pallet only. Pallets of Circle Cobble may include a few extra unneeded pieces due to the mold configuration.

SANDSTONE

SPECIFICATIONS ON PAGE 14

TURF PAVERS

Turf pavers are constructed using high-strength 5,000 psi concrete and adhere to ASTM C1319 Standard Specifications for Concrete Grid Paving Units.

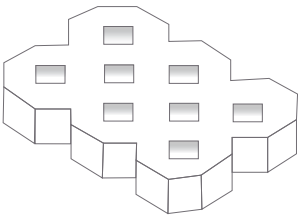

These innovative pavers are ideally suited for seeding grass within the voids, forming a green pathway with the structural durability of concrete. Turf pavers are designed to bear occasional vehicle loads when necessary.

Typical applications for Turf pavers include emergency access roads, overflow parking zones, and auxiliary driveways. It's important to note that Turf pavers are not intended for daily vehicular use, and it is normal for them to develop cracks over time. However, these cracks do not compromise their performance or structural integrity for their intended purposes.

Custom colors available. Contact our sales office for availability. Set up charges may apply. For proper installation, see ICPI TechSpec 8.

DESIGNER TIP

Larger-format pavers can help smaller spaces appear more expansive by reducing visual clutter and creating longer, uninterrupted sightlines.

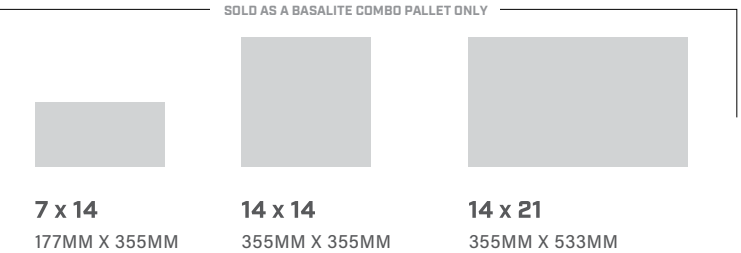

WHY WE LOVE IT

Its understated design works beautifully across a wide range of styles, making it easy to integrate into both new builds and landscape renovations.

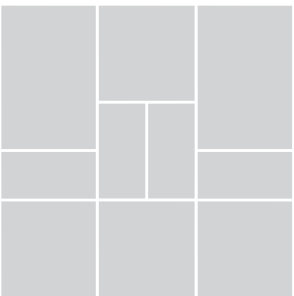

mod | 7

The Mod 7 Premium Paver brings an ultra modern appeal to any residence. This large format system comes in three stunning colors and designed for driveway applications. Manhattan, Newport and Hampton are one of a kind color blends providing an ultra-modern curb appeal.

INTRODUCING LUXE SURFACE TECHNOLOGY

A fusion of Basalite Stay-True™ Treatment and our Refined and Fortified Face-Mix design. Stay-True is an in-line overlay applied during manufacturing to our unmatched face-mix design enriching the paver color depth, extending color fastness over time and increasing stain resistance. This combination enhances durability, makes cleaning easier and has been laboratory proven to add UV protection that will keep your pavers looking like the day they were installed for many years.

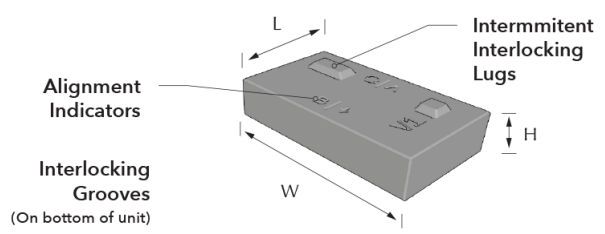

PISAEDGE™ WALL

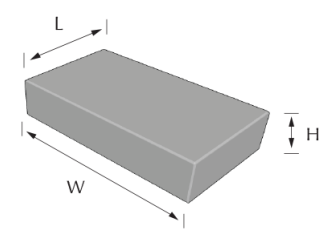

PisaEdge is an innovative segmental retaining wall system that brings a sleek, modern aesthetic to any landscape project. The optimally sized blocks ensure swift and efficient installation, with many contractor-friendly features. PisaEdge offers flexibility, allowing for both battered (slight lean) retaining or perfectly vertical orientation, providing a wide array of installation possibilities. Easily construct garden or large retaining walls, two-sided seat walls, pillars, planters, or almost any other vertical element.

2'FT. GARDEN
This wall system can be used for gravity walls up to 2 feet high.

3'FT. LANDSCAPE
This wall system can be used for gravity walls up to 3 feet high.

ABOVE 4'FT. STRUCTURAL
Typically this wall system can be used for gravity walls up 4' high. Site and Soil conditions on wall less than 4' tall may require Geo Grids. Taller walls can be built using geo grid reinforcements when designed by a qualified engineer.

WALL PROJECT ESTIMATING GUIDE

The Project Estimating Guide lets you know how much block you'll need.

PAGE	PRODUCT	WALL HEIGHT	WALL LENGTH				
			6'	12'	18'	24'	30'
17	Handy Stone II	4" (1 course)	8	16	24	32	40
		8" (2 courses)	16	32	48	64	80
		12" (3 courses)	24	48	72	96	120
		16" (4 courses)	32	64	96	128	160
		20" (5 courses)	40	80	120	160	200
		24" (6 courses)	48	96	144	192	240

For curved or straight walls. *Handy Stone II can be used for walls up to 2 feet high.

PAGE	PRODUCT	WALL HEIGHT	WALL LENGTH				
			10'	15'	20'	25'	30'
18	Nursery Stone	4" (1 course)	10	15	20	25	30
		8" (2 courses)	20	30	40	50	60
		12" (3 courses)	30	45	60	75	90
		16" (4 courses)	40	60	80	100	120
		20" (5 courses)	50	75	100	125	150
		24" (6 courses)	60	90	120	150	180

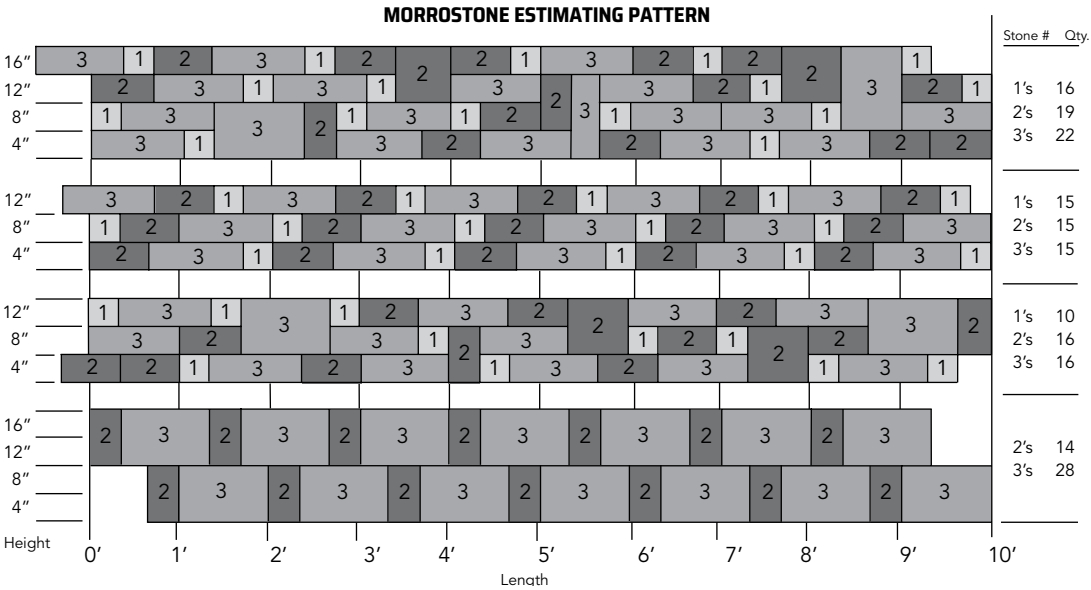

For curved or straight walls. *Nursery Stone can be used for walls up to 2 feet high.

PAGE	PRODUCT	WALL HEIGHT	WALL LENGTH				
			10'	15'	20'	25'	30'
19	AB Legend Block	6" (1 course)	8	12	15	19	23
		12" (2 courses)	15	23	30	38	45
		18" (3 courses)	23	34	45	57	68
		24" (4 courses)	30	45	60	75	90
		30" (5 courses)	38	57	75	94	113
		36" (6 courses)	40	68	90	113	135

For curved or straight walls. *AB Legend Block can be used for walls up to 3 feet high.

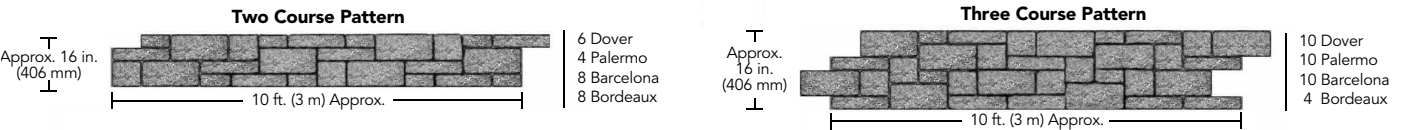

PAGE	PRODUCT	WALL HEIGHT	WALL LENGTH				
			4'	5'	8'	12'	20'
22 & 23	AB Courtyard & Old Country Courtyard	6" (1 course)	3	4	6	9	15
		12" (2 courses)	6	8	12	18	30
		18" (3 courses)	9	12	18	27	45
		24" (4 courses)	12	16	24	36	60
		30" (5 courses)	15	20	30	45	75
		Caps Needed	6	8	12	18	30

For curved or straight walls. *AB Courtyard & Old Country Courtyard can be used for walls up to 3 feet high. Columns can be installed up to 4' tall. 2 York units equal 1 Dublin unit. To incorporate York's into a wall, add to 2 York's for each Dublin subtracted from total.

AB EUROPA ESTIMATING PATTERN

NOTE: For curved walls or walls that need Geo Grid, use the two course pattern.
